

Your Trusted Egg Bank

with Unparalleled Success

Together We Make Families

Who We Are

Lucina has been doing Donor Egg Cycles since 1992, focusing on fresh match donor egg cycles. However, thanks to technological advances, starting in 2018, our frozen egg survival rate constantly surpasses 90%, and the ICSI rate is on par with fresh egg cycles.

For more than 30 years, our team of highly skilled physicians has worked to make the dream of having a family a reality. Our unique model for the Egg Donor journey, ensures superior egg quality for Intended Parents.

Our commitment to quality assurance includes collaborating with your IVF clinic to ensure we are a cohesive extension of your services.

We understand that choosing an egg bank to partner with is highly important. That is why we take great pride in having developed a program that helps all of our partnered fertility clinics by offering the best experience to the egg recipients.

Whether your IVF clinic wants to become our partner to help patients look for quality vitrified donor eggs, or your patient begins the process after seeing a donor profile they like on our donor database, we are ready to support your patients through the process and every step of the way.

Benefits to Your Clinic

Worldwide Access

Is your clinic outside of the U.S? Worry not! We work with IVF centers around the world.

Customized Protocols

All the stimulation protocols are individualized, leading to a higher quality of eggs. Regular analysis allows for continual improvements in all aspects of the process, from donor selection, freezing techniques, transportation, and technical operations using our expert team's data.

Financial Freedom

We do not ask for fees, payments, special arrangements, consultation fees, or contracts with practices.

Stringent Protocols

Our highly specialized team focuses on the details that matter to your outcomes. The entire donation process is centralized at our on-site lab, from recruitment to egg retrieval and storage. We have developed a stringent screening procedure that far exceeds FDA guidelines.

Vast Donor Selection for our Patients

Our donor bank is expansive, and we make all our donor cohorts available to allow your patients to have a wider selection without taking on the costs of a full cycle retrieval.

Seamless Process

Through the years, we have created an extensive donor database, quality control system, and comprehensive customer relations management system to offer a smooth egg donor journey for patients.

Database Integration

We can also offer web integration so interested patients can access our donor database on your clinic's website.

Allow You to Focus on Patient Care

We strive to reduce cost and minimize time and staff by managing the entire egg donation process, from recruitment and screening to ovarian stimulation, vitrification, and shipping. Your clinic benefits from our services by focusing on patient care and accelerating the IVF timeline.

Benefits to Your Patients

Real-Time Access

Your patients can access our egg bank immediately to pick their egg donor.

Affordable Cohorts & No Upfront Payments

We're proud to be one of the most affordable egg banks in the U.S. Your patients do not have to pay anything to sign up with us and select the egg cohort most suitable for their family-building journey.

No Traveling Required

Our egg cohorts are shipped directly to you, so your patients don't have to travel. Our oocytes can be shipped to you within one week of payment.

Diverse Donor Database

We boast one of the largest frozen egg donor databases with diverse racial backgrounds and high-level academic merits. This variety allows your patients to quickly select the perfect donor who matches their desired qualities.

Immediate Availability

Our large pool of top-quality donor eggs are immediately available. Moreover, Intended Parents can also reserve incoming egg cohorts in advance.

Embryo Development Guarantee

Lucina Egg Bank guarantees that at least one blastocyst embryo will develop from each cohort of eggs.

How Does It Work?

GET OUR INFORMATION

Encourage your patients to visit our website. We have educational brochures you can hand out to your patients to learn more about us. Please send us an email at info@lucinaeggbank.com with your clinic information and mention the desired brochure count.

SIGN UP ONLINE

Your patient signs up to get immediate access to our donor database. Once access is granted, they can see the complete donor profiles with detailed info about donor ethnicity, academic background, age, and pictures at no cost.

WE REACH OUT TO YOU

After your patient chooses a suitable donor, they will sign the contract and complete payment. Our experienced and knowledgeable staff will be more than happy to provide any assistance, including comprehensive thaw protocols, if you have not yet worked with our bank.

SHIPMENT

We coordinate with your team to schedule the shipment of the purchased egg cohorts to your desired location at a time your lab is prepared to accept the shipment.
